

Lumina 2520 Series: Premium Cast Translucent Film With Synthetic Liner

This high performance cast translucent film is engineered with excellent weathering and aging characteristics. This film is best used in backlit applications that require excellent, even color illumination with flexibility for sign faces and awnings. This film can also be used on glass, acrylic and polycarbonate sign faces or window substrates. Lumina 2520 Series features a synthetic liner that offers greater dimensional stability and easier application when using a wet application technique. To order punched material, use part number 2570.

Film Technology: Cast
 Film Thickness:..... 2.0 mil
 Color Availability: Various
 Outdoor Durability: 7 year outdoor
 Finish: Gloss
 Blockout: Not Applicable
 Adhesive/Color: Permanent/Clear
 Liner: Synthetic
 Conformability: Flat and simple curves
 Shelf Life: 1 year

Processing:

Computer Cut: Yes
 Steel Rule: Yes
 Thermal Die: Yes
 Flat Bed: Yes
 Sheetable: Not Applicable
 Laminate: Cold

Printing:

Thermal Transfer: Not Applicable
 Solvent and Eco-Solvent: Not Applicable
 UV Inkjet: Not Applicable
 Screen: Yes

Installation:

Wet Apply: Yes
 Minimum Application Temp: 60° F
 Interior/Exterior: Interior and Exterior

Note: For further information regarding: printing, substrate cleaning, application, maintenance, durability and removal please review the corresponding instructional bulletin available at www.fdcfilms.com.
